---

## INDUSTRIAL EXPERIENCE

### Python Intern

17th June 2024 -8th July 2024

- Developed a software which will recognise emotion based on the Amazon Product Review.
- 

## KEY PROJECTS

### Anti-Corruption Website (Google Developers Student Club) | (Github)

- Created an impactful website as part of the GDSC Hackathon with functionalities like chatbot for customer service
- Integrated API's like GeoTag and Encryption services

### Canteen Website Development -

- As a key member, I contributed to the development of a user-friendly website for the College canteen.
  - We used PHP for our backend and connected it to the MySQL database using xampp.
  - We added functions like add to cart, Retrieving data from database and integrated API of Razorpay for payment purposes.
-
